Journal of Experimental Biology (<http://jeb.biologists.org>) is the leading journal in comparative animal physiology. JEB focuses on the form and function of living organisms at all levels of biological organisation – from the molecular and subcellular to the integrated whole animal. Authors and readers reflect a broad interdisciplinary group of scientists who study molecular, cellular and organismal physiology in an evolutionary and environmental context. JEB also proudly sponsors the Holeton award and the Boutilier award.

## Welcome from your Local Organizing Committee Co-Chairs

A warm prairie welcome to Saskatoon, Saskatchewan, the Paris of the Prairies, for the 61<sup>st</sup> Annual Meeting of the Canadian Society of Zoologists and the first in-person meeting since 2019! As we gather here, we acknowledge we are on Treaty 6 Territory and the Homeland of the Métis. We pay our respect to the First Nations and Métis ancestors of this place and reaffirm our relationship with one another. It has been too long since we have all been able to be together in one place and we are sure that you are all looking forward to reconnecting face to face. This meeting is on the beautiful campus of the University of Saskatchewan. Our banquet will be at the Remai Modern Public Art Museum that boasts exhibits and collections of multiple media styles and offers a wonderful view of the South Saskatchewan River.

The program starts on Monday with the NSERC sessions for Research funding, followed by a session for Student Scholarship, and the Education Workshop. This year's public ZET Lecture will be given by award winning author, Candace Savage and will focus on biodiversity in the urban environment. The Wednesday LOC Symposium is: Animal, Human and Environment Interactions: A University of Saskatchewan Perspective, presented by Drs. Emily Jenkins, Christy Morrissey, Winona Wheeler, and Tony Ruzzini. We are immensely grateful to the CSZ students, postdoctoral fellows, and faculty members from across Canada who are presenting at the exciting sessions for this meeting. These include oral presentations and poster presentations on Wednesday evening. The Trainee Network Mixer will follow the poster session at the nearby Louis Loft. The program also features talks by this year's award winners for graduate (PhD) research, early faculty and established faculty from across Canada. It has also been a pleasure to work with this year's CPB, PIE, CMD and IEE symposium organizers.

We are very grateful for the cheerful and tireless work of the LOC (Suraj Unniappan, Emily Jenkins, Nicole Webster, Anastasiia Nykonenko, and Cody Malone). This meeting could not have happened without the USask graduate student volunteers who contributed to every aspect of this conference, from the logo design to registration and everything in between. Neil Chilton, Grant McClelland, Kurt Gamperi and Brent Sinclair provided valuable and frequent advice during the past year. Allain Esquivel and Anastasiia Nykonenko developed and maintained the web page. Igor Jakab provided the registration process - Keith Tierney and Louise Milligan managed the accounting. Margaret Bieber coordinated meetings and food at Marquis Hall, Neeti Sharma and Leanne Twordik coordinated the on-campus residence, Antonia Kozak coordinated the Holiday Inn Express Hotel, and Kecia Batting coordinated the Parktown Hotel. The sponsors have been generous and enthusiastic. These include Company of Biologists (Journal of Experimental Biology), the Saskatchewan Health Research Foundation, the University of Saskatchewan – Department of Biology, Western College of Veterinary Medicine Associate Dean Research Office, Department of Veterinary Biomedical Sciences, College of Arts and Science Vice Dean Research Scholarly and Artistic Work, and the Vice Provost Faculty Relations. Room bookings for sessions was made possible by the Western College of Veterinary Medicine (Karen White and Erica Spracklin) and the College of Arts and Science (Philip Hitchings, Gail McKenzie, and Spencer Smit).

- Som Niyogi and Jack Gray (Co-Chairs)

## **Bienvenue de la part des coprésidents de votre comité d'organisation local**

Bienvenue à Saskatoon, Saskatchewan, le Paris des Prairies, pour la 61<sup>ème</sup> réunion annuelle de la Société Canadienne de Zoologie et la première réunion en personne depuis 2019! En nous rassemblant ici, nous reconnaissons que nous nous trouvons sur le territoire du Traité no 6 et sur la terre natale des Métis. Nous rendons hommage aux ancêtres des Premières nations et des Métis de ce lieu et réaffirmons notre relation mutuelles. Cela fait trop longtemps que nous n'avons pas pu nous réunir en un même lieu et nous sommes certains que vous êtes tous impatients de reprendre contact en personne. Cette réunion se déroulera sur le magnifique campus de l'Université de la Saskatchewan. Notre banquet aura lieu au Remai Modern Public Art Museum, qui présente des expositions et des collections de différents styles médiatiques et offre une vue magnifique sur la rivière Saskatchewan Sud.

Le programme commence le lundi avec les sessions du CRSNG sur le financement de la recherche, suivies d'une session sur les bourses d'études et de l'atelier sur l'éducation. Cette année, la conférence publique ZET sera donnée par Candace Savage, auteure primée, et portera sur la biodiversité dans l'environnement urbain. Le LOC symposium du mercredi est intitulé « Interactions entre l'animal, l'homme et l'environnement : Une perspective de l'université de Saskatchewan », présenté par les docteurs Emily Jenkins, Christy Morrissey, Winona Wheeler et Tony Ruzzini. Nous sommes extrêmement reconnaissants envers les étudiants, les boursiers postdoctoraux et les membres du corps professoral du CSZ de tout le Canada qui participent aux sessions passionnantes de cette réunion. Ces sessions comprennent des présentations orales et des présentations d'affiches le mercredi soir. La réunion du réseau des stagiaires suivra la session d'affichage au Louis Loft, situé à proximité. Le programme prévoit également des présentations par les lauréats des prix de cette année pour la recherche de troisième cycle (PhD), par des professeurs en début de carrière et par des professeurs établis de tout le Canada. Ce fut également un plaisir de travailler avec les organisateurs des symposiums CPB, PIE, CMD et IEE de cette année.

Nous sommes très reconnaissants du travail joyeux et infatigable du LOC (Suraj Unniappan, Emily Jenkins, Nicole Webster, Anastasiia Nykonenko et Cody Malone). Cette réunion n'aurait pas pu avoir lieu sans les étudiants diplômés bénévoles d'USask qui ont contribué à tous les aspects de cette conférence, de la conception du logo à l'inscription et tout ce qui se trouve entre les deux. Neil Chilton, Grant McClelland, Kurt Gamperi et Brent Sinclair ont fourni des conseils précieux et fréquents au cours de l'année écoulée. Allain Esquivel et Anastasiia Nykonenko ont développé et maintenu la page web. Igor Jakab a assuré le processus d'inscription - Keith Tierney et Louise Milligan ont géré la comptabilité. Margaret Bieber a coordonné les réunions et la restauration à Marquis Hall, Neeti Sharma et Leanne Twordik ont coordonné la résidence sur le campus, Antonia Kozak a coordonné l'hôtel Holiday Inn Express et Kecia Batting a coordonné l'hôtel Parktown. Les sponsors ont été généreux et enthousiastes. Il s'agit notamment de Company of Biologists (Journal of Experimental Biology), de l'Université de Saskatchewan - Département de biologie, du Western College of Veterinary Medicine Associate Dean Research Office, du Département des Sciences Biomédicales Vétérinaires, du College of Arts and Science Vice Dean Research Scholarly and Artistic Work, et du Vice Provost Faculty Relations. La réservation de salles pour les sessions a été rendue possible par le Western College of Veterinary Medicine (Karen White et Erica Spracklin) et le College of Arts and Science (Philip Hitchings, Gail McKenzie et Spencer Smit)

- Som Niyogi et Jack Gray (coprésidents)

## Welcome to Saskatoon

Saskatoon is the largest city in Saskatchewan, with a population of approximately 320,000 and provides a large diversity of activities while maintaining a warm prairie welcome. Please check out the City of Saskatoon home page (<https://www.saskatoon.ca/>) for information on available activities. Public transportation in Saskatoon is moderately convenient. However, the city core is easily walkable and there is the Meewasin trail that runs along the South Saskatchewan River. Please see the included city map for details. The meeting will be held on the University of Saskatchewan campus and maps, signs, and volunteers will be available to help navigate the locations of conference events. We are striving to making this a family-friendly meeting and are organizing options for those that choose to bring their families.

### **Location and Climate:**

Saskatoon is 52.15790176° N, 106.6702° W and is 482 M above sea level. Located in the center of the Canadian prairies, Saskatoon is classified as a cold semi-arid climate, with warm summers and long, cold winters. The daily temperatures in May range from a high of 16-21°C and a low of 2-8°C.

### **Safety and security:**

Saskatoon is a fairly safe city, but as in any city common sense rules apply. The USask campus and hotels have security on site if needed. Information related to COVID-19 considerations during the conference can be found on the meeting webpage (<https://conferences.usask.ca/csz-scz2023/covid.php>).

### **Taxis to and from Airport:**

Saskatoon has access to Uber ride services and also has a number of taxi services, including:  
Captain Taxi: 306-242-0000  
Comfort Cabs: 306-242-6666  
YXE City Cabs: 306-500-2339  
Saskatoon Radio Cabs: 306-242-2626

Hotels may also have shuttle to and from the airport. Please contact your hotel directly.

## Bienvenue à Saskatoon

Saskatoon est la plus grande ville de la Saskatchewan, avec une population d'environ 320 000 habitants et offre une grande diversité d'activités tout en conservant un accueil chaleureux dans les prairies. Veuillez consulter la page d'accueil de la ville de Saskatoon (<https://www.saskatoon.ca/>) pour obtenir des informations sur les activités disponibles. Les transports en commun à Saskatoon sont modérément pratiques. Cependant, le centre-ville est facilement accessible à pied et il y a le sentier Meewasin qui longe la rivière Saskatchewan Sud. Veuillez consulter le plan de la ville inclus pour plus de détails. La réunion aura lieu sur le campus de l'Université de la Saskatchewan et des cartes, des panneaux et des bénévoles seront disponibles pour aider à naviguer vers les lieux des événements de la conférence. Nous nous efforçons d'en faire une réunion conviviale pour les familles et organisons des options pour ceux qui choisissent d'amener leur famille.

### **Emplacement et climat:**

Saskatoon est à 52,15790176° N, 106,6702° O et à 482 M au-dessus du niveau de la mer. Située au centre des prairies canadiennes, Saskatoon est classée comme un climat semi-aride froid, avec des étés chauds et de longs hivers froids. Les températures quotidiennes en mai varient entre un maximum de 16-21°C et un minimum de 2-8°C.

### **Sûreté et sécurité:**

Saskatoon est une ville assez sûre, mais comme dans toute ville, des règles de bon sens s'appliquent. Le campus USask et les hôtels ont une sécurité sur place si nécessaire. Les informations relatives aux considérations liées à la COVID-19 lors de la conférence sont disponibles sur la page Web de la réunion (<https://conferences.usask.ca/csz-scz2023/covid.php>).

### **Taxis depuis et vers l'aéroport:**

Saskatoon a accès aux services de transport Uber et propose également un certain nombre de services de taxi, notamment:

Capitaine Taxi: 306-242-0000

Cabines confort: 306-242-6666

Cabines urbaines YXE: 306-500-2339

Cabines radio de Saskatoon: 306-242-2626

Les hôtels peuvent également avoir une navette vers et depuis l'aéroport. Veuillez vous adresser directement à votre hôtel.

## Welcome from the CSZ President

It is my great pleasure to welcome you all to the first in-person CSZ meeting since our last gathering in 2019 in Windsor! It has been a tumultuous time since then, and I'm sure many of you are as excited as I am to see colleagues and friends again after what feels like a very long time indeed. I'm grateful to be working on Treaty 7 territory and in the home of the Metis Nation of Alberta, Region 3 as I write you this message. I look forward to joining you all on Treaty 6 and in the Homeland of the Metis for our meeting.

I'd like to begin with a huge thank you to our Saskatoon Local Organizing Committee led by Jack Gray and Som Niyogi, who have had to wait to host their meeting since it was canceled in 2020. We have finally arrived and it's great to be here! I also extend my deepest gratitude to our 2021 and 2022 Virtual Organizing Committee teams, led by Graham Scott and Grant McClelland for 2021 and Nicolas Pichaud and Simon Lamarre for 2022, who hosted two of the very best online meetings I have had the pleasure of attending. Thanks to all who helped keep our Society connected during these difficult years.

It has been my pleasure to be your President for 2022-2023, watching as our Society continues to grow and evolve. New initiatives abound, with particular highlights being the ongoing development of a new Society website under the guidance of our Communications Officer, Katie Marshall, and a string of excellent blog posts under the leadership of our Student/PDF Section. Highlights of this year's Annual Meeting will include the Biology Communication Workshop for early career researchers, led by Pat Wright, Brittney Borowiec, and Gary Anderson, the Caregiver Breakfast, organized by Sandra Fehsenfeld, and the LOC Symposium entitled Animal, Human and Environment Interactions: A University of Saskatchewan Perspective, among many other exciting events.

I hope that everyone is able to enjoy a rejuvenating and collegial week as we celebrate the hard work and achievements of our Society members together in Saskatoon for our 62<sup>rd</sup> Annual Meeting. I look forward to catching up with many of you during this time. Have a great meeting!

Heather Jamniczky

President 2022-2023

## Mot de Bienvenue du Président de la SCZ

C'est avec grand plaisir que je vous souhaite la bienvenue à la première réunion en personne de la SCZ depuis notre dernier rassemblement en 2019 à Windsor! Cela a été une période tumultueuse depuis lors, et je suis sûr que beaucoup d'entre vous sont aussi excités que moi de revoir des collègues et des amis après ce qui semble être très long. Je suis reconnaissant de travailler sur le territoire du Traité 7 et chez la Nation métisse de l'Alberta, Région 3, au moment où je vous écris ce message. J'ai hâte de vous rejoindre tous sur le Traité 6 et dans la patrie des Métis pour notre réunion.

J'aimerais commencer par un immense merci à notre comité organisateur local de Saskatoon dirigé par Jack Gray et Som Niyogi, qui ont dû attendre pour organiser leur réunion depuis qu'elle a été annulée en 2020. Nous sommes enfin arrivés et c'est formidable d'être ici ! J'exprime également ma plus profonde gratitude à nos équipes du comité d'organisation virtuel 2021 et 2022, dirigées par Graham Scott et Grant McClelland pour 2021 et Nicolas Pichaud et Simon Lamarre pour 2022, qui ont animé deux des meilleures réunions en ligne auxquelles j'ai eu le plaisir d'assister. Merci à tous ceux qui ont aidé à garder notre Société connectée pendant ces années difficiles.

J'ai eu le plaisir d'être votre président pour 2022-2023, en observant la croissance et l'évolution de notre Société. Les nouvelles initiatives abondent, avec en particulier le développement continu d'un nouveau site Web de la Société sous la direction de notre agente des communications, Katie Marshall, et une série d'excellents articles de blog sous la direction de notre section étudiant/PDF. Les faits saillants de la réunion annuelle de cette année comprendront l'atelier de communication sur la biologie pour les chercheurs en début de carrière, dirigé par Pat Wright, Brittney Borowiec et Gary Anderson, le petit-déjeuner des aidants, organisé par Sandra Fehsenfeld, et le symposium du COL intitulé Interactions animales, humaines et environnementales: Une perspective de l'Université de la Saskatchewan, parmi de nombreux autres événements passionnants.

J'espère que tout le monde pourra profiter d'une semaine rajeunissante et collégiale alors que nous célébrons ensemble le travail acharné et les réalisations des membres de notre Société à Saskatoon pour notre 62e assemblée annuelle. J'ai hâte de rattraper beaucoup d'entre vous pendant cette période. Bonne réunion !

Heather Jamniczky

Président 2022-2023

# General Information / Informations Générales

## Conference wifi

We have arranged for delegates to have internet access via the campus wifi. Please log in with the following information:

**Network: UofS Guest**

**Username: csz2023**

**Password: zoosask1**

Instructions: <https://wiki.usask.ca/display/public/ISDKB/How+do+I+connect+to+the+uofs-guest+Wireless+Network>

*Delegates may also use UofS Public wifi network, for which no username and password are required.*

Instructions: <https://wiki.usask.ca/pages/releaseview.action?pageId=1575157937>

## **Social Media Information**

For additional information please refer to the CSZ official website: <https://conferences.usask.ca/csz-csz2023/index.php>

Please follow the CSZ official social media accounts on Twitter and Instagram:

@CSZ\_Sask2023

@csz\_2023

Please use #CSZ2023 hashtag when posting photos on social media.

## Emergency Contact Numbers:

- **Call 911 for general emergency** (police, fire, and ambulance)
- On campus, call 306 966 5555 for emergency assistance

## Hospitals:

- Royal University Hospital: USask campus, 103 Hospital Dr, Saskatoon (306-655-1000).
- City Hospital: 701 Queen St, Saskatoon (306- 655-8000).
- St. Paul's Hospital: 1702 20th St W, Saskatoon (306-655-5000).

## Registration desk: WCVM (mornings) and Marquis Hall (afternoons and evenings) Check-In, payments, inquiries:

- Monday 12:00 -19:00
- Tuesday 08:00 -18:00
- Wednesday 08:00 -18:30
- Thursday 08:00 -13:15

**Note: Credit card is preferred for payments for any conference registration fees or other purchases. Marquis Hall takes debit, credit cards, or cash for the cash bars.**

## **Presentations:**

### **Talks:**

- Talks will be held in several rooms at the Western College of Veterinary Medicine and Arts room 143. Please refer to schedules and maps, and signage. Rooms will be equipped with PC computers running Microsoft PowerPoint.
- No other media formats (e.g. slides) or software will be available, and participants will not be able to connect their personal computers to the projectors.
- You should arrive in the session room at 8 AM on the day of your presentation to upload your presentation file on the computer. An on-site volunteer will assist you in uploading your presentation.
- Please be in your session room at least 15 minutes before the beginning of your session and introduce yourself to the session chair(s).

### **Posters:**

**Poster orientation should be portrait, NOT landscape and the maximum size should be: (90 cm [35 in.] wide by 110 cm [43 in.] high).**

- The poster session runs from 6 to 8 PM, May 17th in the Garry Room, Marquis Hall.
- Presenters are expected to attend their poster for their assigned hour during the poster session to discuss their work with attendees visiting your poster.
  - You will be assigned a poster number, which can be found in the CSZ Annual Meeting Program book.
  - You must set up your poster on the poster board displaying the assigned poster number.
  - Your number will determine your presentation time: 6 to 7 PM for even-numbered posters, 7 to 8 PM for odd numbered posters.
- Presenters are responsible for the setup and take-down of the poster.
  - Poster set-up time: 2 to 2:30 PM
  - Poster take-down time: 8 to 8.30 PM
  - Double-sided Velcro will be provided in the exhibition hall, so you can hang your poster.
  - Posters that are not removed by the end of the day will be removed and destroyed.
- The LOC cannot guarantee access to any on-site printing facilities, and we have not partnered with any local printing vendors in Saskatoon.

## **Accommodations:**

Please see the conference website for information on accommodations  
(<https://conferences.usask.ca/csz-scz2023/accommodation.php#top>)

## **Bank locations:**

ATM locations on campus:

Royal Bank, second floor of Agriculture Building, next to Agriculture Café

Place Riel, main floor, close to north entrance:

Royal Bank, Affinity Credit Union, Bank of Montreal

Place Riel, downstairs, at Circle K in food court

## **Places to eat:**

**On campus grab and go:**

Agriculture Café (8 am -2 pm)

Arts Café (8am -2 pm)  
Arts Booster Juice (10 am – 2 pm)  
Starbucks (Murray library building) (8 am-4 pm)  
Tim Hortons (Arts tunnel, Geology, and Marquis Hall) (8 am-3 pm)  
Marquis Culinary Centre (many options for lunch) 11 am –1:30 pm  
Lower Place Riel food court (many options for snacks and lunch, some open until 6 pm: Treats, Crepe Bistro, Harvey's, Purlblendz, Umi Sushi, Flaming Wok, Mama's Pizza and Pasta).

**Near campus, walking distance:**

Dairy Queen Grill and Chill 1418 College Drive  
Louis', Lower Memorial Union Building, [menu](#)  
Louis' Loft, Upper Memorial Union Building, lunch and coffee options  
Filosophi Wise Cuisine (sit down lunch and dinner) 414 Cumberland Ave N. [menu](#)

**Near campus, short drive or longer walk:**

Preston Crossing (north and east of the University, on Preston Ave) hosts a range of the usual suspects, including Starbucks, Press'd Sandwich Shop, Cora Breakfast and Lunch, Bento Sushi...

**Around town:**

20<sup>th</sup> Street between Ave A and E hosts a range of dining options, including:  
Picaro [menu](#)  
Odd Couple (vegan options) [menu](#)  
Primal [menu](#) (\$\$\$)

Broadway area is another great place to drink and dine, including:

Una pizza and wine [menu](#)  
Yard and Flagon pub [menu](#)  
Calories [menu](#)  
Odla [menu](#)

If you want to range further afield for breakfast, recommended bakeries and cafes:  
Broadway Café, Park Café, Earthbound bakery (take out only), Night Oven bakery

**Local souvenirs:**

Check out Saskmade on 8<sup>th</sup> Street (<https://www.saskmade.ca/>)  
There are also gift shops at the Remai Modern Art Gallery (site of banquet, but only open til 5 pm), Wanuskewin Heritage Park (site of field trip), and the USask Bookstore (Marquis Hall and Preston Crossing locations)

**Multifaith Room:**

If you require a private space in the mornings, please contact one of the members of the Local Organizing Committee or a volunteer and we can arrange a space for you in WCVM. If you require space in the afternoon, Marquis room 105 will be available and can be accessed via room 104. Signs will be posted on each room.

**Lactation Room:**

If you require a private space, please contact one of the members of the Local Organizing Committee or a volunteer and we can arrange a space for you.

**Paid Public Parking:**

University Campus Parking – Link to an Interactive Map: <https://maps.usask.ca/>

Public Parking Map: [https://maps.usask.ca/map-nav/campus\\_maps/uofsmap4c.pdf](https://maps.usask.ca/map-nav/campus_maps/uofsmap4c.pdf)

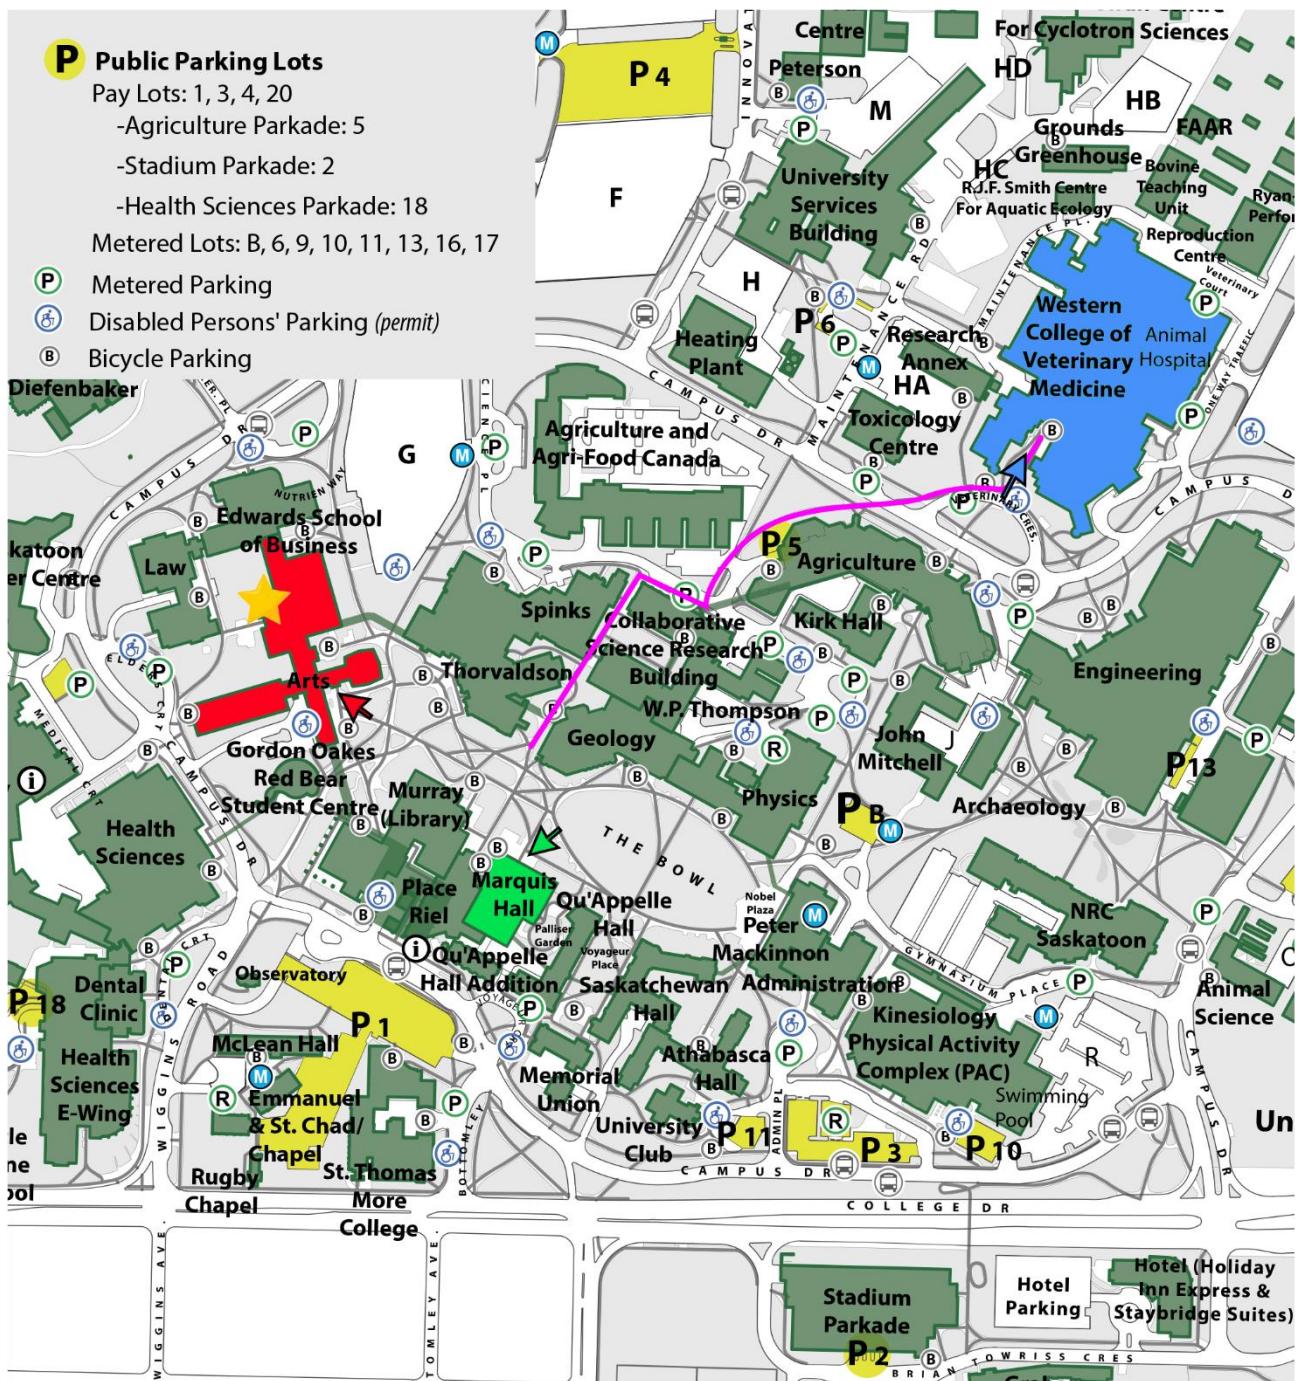

Paid public parking lots P1, P11 and P13 are closer to the Marquis Hall.

Paid public parking lots P4, P5 and P16 are closer to the Western College of Veterinary Medicine.

A small number of metered parking spots (limited duration parking) are also available in front of the WCVM and on one side of the Agriculture Building (across the WCVM). This is not guaranteed, and we encourage you to park at a dedicated public parking space that allows longer term parking. This is cheaper and guarantees longer duration parking.

## Campus Map

It takes approximately 10 minutes (**Purple line**) to walk from the Western College of Veterinary Medicine (WCVM; blue) where the concurrent sessions are held to the other venues: Arts (red) and Marquis Hall (green). There will be signs and volunteers to help you find your way.

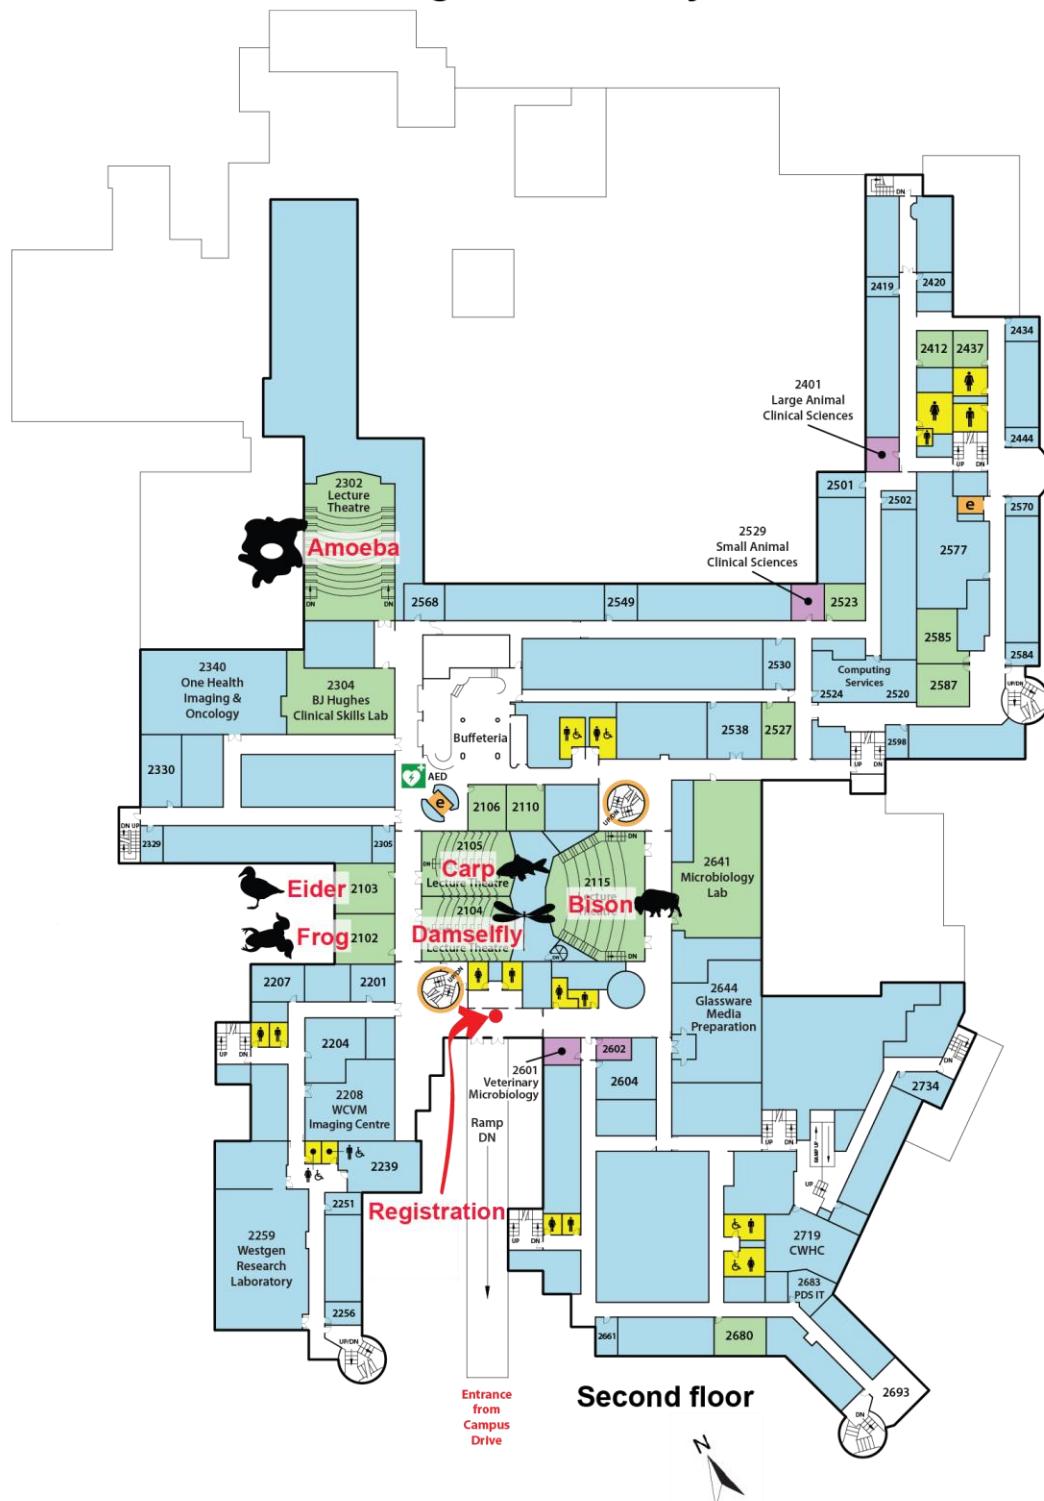

Maps of the Western College of Veterinary Medicine (WCVM) Venue – SECOND Floor

**(Direct access through the ramp from 52 Campus Drive; concurrent sessions will be held here)**

All six venues are accessible from the **second floor**. This is the preferred route of entry to the building (WCVM). Amoeba= 2302, Bison = 2115, Carp = 2105, Damselfly = 2104, Eider = 2103, Frog = 2102

**Western College of Veterinary Medicine**

## **WCVM First Floor Map (access through the pathway adjacent to the ramp) (Concurrent sessions will be held here)**

Four of the six venues are accessible from the first floor... Amoeba = 2302, Bison = 2115, Carp = 2105, Damselfly = 2104,

# **Western College of Veterinary Medicine**

**Monday / lundi**  
**13:00-15:00**

## **NSERC Workshops / Ateliers du CRSNG**

**13:30-14:15 - NSERC Grant Information Session for Faculty / Atelier du CRSNG pour les professeurs**  
Location: Exeter Room, Marquis Hall

Gary Anderson (University of Manitoba) and Kim Coté (NSERC)

The faculty workshop will be attended by representatives from NSERC EG 1502 – Biological Systems and Functions as well as past and current EG 1502 members. The workshop will provide information from NSERC and there will be a mock Discovery Grant evaluation.

L'atelier du corps professoral réunira des représentants du CRSNG EG 1502 - Systèmes et fonctions biologiques ainsi que des membres passés et actuels du cours EG 1502. L'atelier fournira de l'information du CRSNG et il y aura une simulation d'évaluation de la subvention à la découverte.

**14:15-15:00 - NSERC Information Session for Students and Post-Doctoral Fellows**  
Location: Exeter Room, Marquis Hall

Phil McLoughlin (University of Saskatchewan)

The student workshop will be attended by representatives from NSERC Scholarships and Fellowships and past members of the Scholarships and Fellowships Selection Committee. The workshop will provide information about the program and strategies for completing a successful proposal.

L'atelier étudiant réunira des représentants des bourses d'études et de recherche du CRSNG et d'anciens membres du comité de sélection des bourses d'études et de recherche. L'atelier fournira des renseignements sur le programme et les stratégies pour compléter une proposition réussie.

**Monday / lundi**  
**15:30-16:30**

## **Education Workshop / Atelier d'éducation**

Location: Exeter Room, Marquis Hall

Mitch Price (the College Board), Jack Gray (University of Saskatchewan), Paul Dick (University of Saskatchewan)

The title for this year's workshop is "**Catch and Release: Student Progression in Biology - from High School to Undergraduate Convocation and Beyond....**" The theme of the workshop in the context of the meeting is "how do we build a zoologist?" We will discuss how students entering undergraduate programs are prepared, how their undergraduate programs progress, and how they will continue as learners in life beyond their degree. The workshop has been developed by Dr. Mitch Price (Curriculum and Assessment, The College Board), Dr. Jack Gray (Professor of Biology, University of Saskatchewan), and Paul Dick (Lab Coordinator, Department of Biology, University of Saskatchewan).

Le titre de l'atelier de cette année est "**Catch and Release: Student Progression in Biology - from High School to Undergraduate Convocation and Beyond....**" Le thème de l'atelier dans le cadre de la rencontre est « comment construit-on un zoologiste? » Nous discuterons de la façon dont les étudiants entrant dans les programmes de premier cycle sont préparés, de la progression de leurs programmes de premier cycle et de la manière dont ils continueront à apprendre dans la vie au-delà de leur diplôme. L'atelier a été élaboré par le Dr Mitch Price (Curriculum and Assessment, The College Board), Dr Jack Gray (professeur de biologie, Université de la Saskatchewan) et Paul Dick (coordonnateur de laboratoire, Département de biologie, Université de la Saskatchewan).

**Monday / lundi**  
**17:00-18:30**

## **ZET Lecture / Conférence FEZ**

Location: Garry Room, Marquis Hall

### **Order of Proceedings**

#### **Welcome:**

- LoC Introduction by Nicole Weber (University of Saskatchewan)
- Remarks by Som Niyogi & Jack Gray, LoC Co-chairs
- Baljit Singh, University of Saskatchewan Vice President Research (introduced by Emily Jenkins)

**Welcome to Conference and the ZET program:** Heather Jamniczky, (University of Calgary) CSZ President

Location: ARTS 143

### **ZET Lecture**

**Introduction:** Suraj Unniappan (University of Saskatchewan)

### **ZET Lecture: Candace Savage (Award-winning author)**

#### **“Bringing Back the Buzz: Cities and Biodiversity”**

Candace Savage was born in the Peace River Country of northern Alberta and educated at the University of Alberta but saw the light and moved one province east half a lifetime ago. She is the award-winning author of more than two dozen books including *Strangers in the House* and *Hello, Crow!*, both published in 2019. Her previous title, *A Geography of Blood* (2012) won three Saskatchewan Book Awards, plus the Hilary Weston Writers' Trust Prize for Nonfiction, and was featured by the Saskatchewan Library Association for their One Book One Province project in March 2020. She shares her time between Eastend and Saskatoon, Saskatchewan.

## Tuesday, May 16<sup>th</sup>

7:30-8:30	Caregivers Breakfast	Frog (WCVM 2102)
8:30-10:00	<b>Contributed Sessions</b>	
	CMD - Vertebrates ( <b>CMD1</b> )	Carp WCVM 2105

**Tuesday / mardi**  
**16:30-17:30**

**Cameron Lecture / Conférence Cameron**

**Outstanding Ph.D. Thesis in Zoology submitted to a Canadian University**

Location: Arts 143

Chaired by : Heather Jamniczky

**Jackie Lebenzon,**

**Department of Integrative Biology  
University of California, Berkeley**

Jackie did her undergrad at Western University and completed her Honour's thesis with Brent Sinclair where she explored how crickets maintain salt and water balance in the cold. After getting hooked on insect cold tolerance, she returned to Western for her PhD with Brent where she studied how an important economic pest species, the Colorado potato beetle, survives harsh temperate winters. Jackie is now an NSERC postdoctoral fellow working with Caroline Williams at the University of California Berkeley. She has shifted gears (but returned to her orthopteran roots!) exploring the evolutionary physiology of life history trade-offs in wing polymorphic field crickets. Outside of the lab, Jackie is an avid baker, coffee shop explorer, and Wingspan enthusiast.

**Tuesday / mardi**  
**17:30-18:30**

**Fry lecture / Conférence Fry**  
**Outstanding contribution to Zoology in Canada**

Location: Arts 143

Chaired by : Heather Jamniczky

**Dr. Kathleen Gilmour**

**Department of Biology**  
**University of Ottawa**

Katie Gilmour is a professor in the Department of Biology at the University of Ottawa, where she has been since 2004. She was an undergraduate at McMaster University and then completed her PhD at the University of Cambridge with Charlie Ellington, working on bumblebee flight muscle. She moved to working on fishes as a postdoctoral fellow, first at the University of Ottawa and then McMaster. Her current research explores two themes. First, she aims to understand the mechanisms through which fish maintain gas exchange and acid-base balance in diverse environments. Work in this area focuses on mechanisms of gas sensing and ion transport, particularly with respect to the enzyme carbonic anhydrase, which plays key roles in both gas transfer and acid-base balance in a variety of tissues. Second, Gilmour uses the formation of dominance hierarchies in fish and the resultant social stress as a means of studying chronic stress. Questions of interest focus on how the stress axis functions during acute versus chronic stress, as well as the physiological consequences of chronic stress on metabolism, growth and tolerance of environmental challenges such as elevated temperature. Gilmour serves as a Monitoring Editor for the Journal of Experimental Biology and is the Vice-Dean, Governance and International Affairs for the Faculty of Science at the University of Ottawa.

Location: Damselfly – WCVM 2104

Room Chair: Loki Snyman, Laura Ferguson

PIE2-1 08:30	<b>Snyman, L.P.</b> , Minkova, S., Jenkins, E.J. University of Saskatchewan <b>Dermacentor ticks in Saskatchewan</b>
PIE2-2 08:45	<b>Lauzon, M.</b> , Easy, R.H., Ferguson, L.V. Acadia University <b>Impacts of pathogen infection on black-legged tick winter activity and physiology</b>
PIE2-3 09:00	<b>MacLeod, C. D.</b> , Luong, L. T. University of Alberta <b>Fruit flies can differentiate between parasite and predator threat</b>
PIE2-4 09:15	Rand, E. J., Smith T. G., <b>Ferguson, L. V.</b> Acadia University <b>Comparative thermal performance of mosquito immunity</b>
PIE2-5 09:30	<b>Swanburg, T. L.</b> , Easy, R. H., Hillier, N. K., Smith, T. G., Ferguson, L. V. Acadia University <b>Detecting the Spread of Invasive Mosquitoes and Disease Potential in Nova Scotia</b>
PIE-6 09:45	Buhler, K.J., <b>Snyman, L.P.</b> , Fuglei, E., Davidson, R., Ptochos, S., Galloway, T., Jenkins, E.J. University of Saskatchewan <b>Evidence of a cryptic louse species on Arctic foxes</b>

**Wednesday / mercredi**  
**08:30- 10:00**  
**Contributed Sessions / Sessions Contribuées**

**IEE3 - Invertebrates**

Location: Bison – WCVM 2115

Room Chair: Maud Ferrari, Doug Chivers

IEE3-1 08:30	<b>Black, E.B.</b> , Blair, J.D., van der Burg, K.R.L., Marshall, K.E. University of British Columbia <b>Crowd-sourced observations of a polyphagous moth reveal evidence of allochronic speciation varying along a latitudinal gradient</b>
IEE3-2 08:45	<b>Ulrich, J.C.</b> , Chivers, D.P., Ferrari, M.C.O University of Saskatchewan <b>The Effect of Abiotic Stimuli on the Predation Efficiency of Water Tigers (<i>Dytiscus alaskanus</i>)</b>
IEE3-3 09:00	<b>Butler-Siemens, S.B.</b> , Phillips, I.D. University of Saskatchewan <b>The Decomposition of Manure in Aquatic Ecosystems</b>
IEE3-4 09:15	<b>Achtymichuk, G. H.</b> , Fish, K. M., Ferrari, M. C. O. University of Saskatchewan <b>Risk or reward? Behavioural response of crayfish to alarm cues when fed a cannibalistic diet</b>
IEE3-5 09:30	<b>Vanderwel, K. M.</b> , Chivers, D. P., Ferrari, M. C. O. University of Saskatchewan <b>Water Temperature and Personality in Crayfish</b>
IEE3-6 09:45	Knighton, E., Walls, L.G., McGaw, I.J., <b>Wyeth, R.C.</b> St. Francis Xavier University <b>Influences of prey type on American lobster agonistic behaviours</b>

**Wednesday / mercredi**  
**10:30- 12:10**

**William S. Hoar Award**  
**Students talks**

Location: Arts 143

Room Chair: Carol Bucking

Hoar -1 10:30	<b>Blanchard, T.S.</b> and Schulte P. M. University of British Columbia <b>From genes to physiology: Impact of fluctuating environments during early development</b>
Hoar -2 10:50	<b>Coulson, S. Z.</b> , Staples, J. F., Guglielmo, C. G. Western University <b>Flight muscle mitochondria are seasonally plastic in a migratory songbird</b>
Hoar -3 11:10	<b>Earhart, M.L.</b> Department of Zoology, University of British Columbia, Vancouver, Canada <b>From the epigenome to performance: effects of heatwave acclimation in an ancient endangered fish</b>
Hoar -4 11:30	<b>Lazaro-Côté, A.</b> , Vijayan, M. M. University of Calgary <b>Wild coho salmon females with high circulating cortisol have reduced fitness</b>
Hoar-5 11:50	<b>Pujari, N.</b> , Browne, V., Leung, A. K. W. University of Saskatchewan <b>Mating induced metabolic changes in female Drosophila is regulated by dNUCB1's expression in the nervous system</b>

**Wednesday / mercredi**  
**14:30- 16:30**

**LOC Symposium**

**Animal, Human and Environment Interactions: A University of  
Saskatchewan Perspective**

Location: Arts 143

Room Chairs: Suraj Unniappan & Emily Jenkins

LOC -1 14:30	<b>Emily Jenkins</b> , Kayla Buhler, Loki Snyman, Maarten Voordouw, Janet Hill, Patrick Leighton, Antonia Dibernardo, Phil Curry, Priya Goundar, Jade Savage, Jeremie Bouffard Western College of Veterinary Medicine <b>A One Health approach to ticks and tick-borne diseases in people, animals, and the environment at an interface zone in Canada</b>
LOC -2 15:00	<b>Morrissey, Christy</b> Department of Biology <b>Farms, Food and Avifauna: Rethinking agricultural production to enhance sustainability</b>
LOC -3 15:30	<b>Wheeler, Winona</b> Indigenous Studies Department <b>Western meets Indigenous: Horse Nations in the Americas</b>
LOC -4 16:00	<b>Ruzzini, A. C.</b> , Dhindwal, P., Myziuk, I., Thompson, C.T., Kos, D., Jelinski, M. J. Department of Veterinary Microbiology <b>Emerging antimicrobial resistance hiding in plain site</b>

**Wednesday / mercredi**  
**17:00-18:00**

**Diversity Workshop / Atelier sur la Diversité**  
**Navigating Authorship**

Location: Arts 143

Chaired by: Brittney Borowiec

Authorship is how academics communicate credit and responsibility for work. Authorship has high stakes, especially for early career researchers, for grants, scholarships, jobs, and awards. But authorship is also complicated. Authorship disparities disproportionately affect equity-seeking groups, and authorship decisions can be impacted by unconscious bias. Joins us as we wrestle with authorship issues with case studies and facilitated discussion.

**Wednesday / mercredi**  
**18:00-20:00**

**Poster Session**

Location: Garry Room, Marquis Hall (presenting authors in bold). \* = Holeton Award finalist

## Meet the Editors of Journal of Experimental Biology

2023 is the 100<sup>th</sup> anniversary of Journal of Experimental Biology, and JEB Editors Katie Gilmour, Trish Schulte and Pat Wright will be hosting a 'Meet the Editors' event during the Poster Session.

Come and chat to them to find out more about the journal, all the things we are doing to celebrate our centenary this year and how we support early-career researchers, including travelling fellowships and our new grants to support junior faculty staff.

There will be lots of JEB goodies to take away, including centenary notebooks and pens, JEB Classics and Highlights booklets, postcards and stickers, and issues of the journal.

Kathleen Gilmour

Patricia Schulte

Patricia Wright

**Wardle Lecture**

Location: Bison WCVM 2115

Chair: Laura Ferguson

**Kayla King**  
**Department of Microbiology and**  
**Immunology**

**University of British Columbia**

**“Chasing the Red Queen”**

Dr. King is a Professor of Biology at the University of British Columbia and Professorial Fellow at the University of Oxford, focusing on the evolution and ecology of host-pathogen interactions. Dr. King's research includes themes of biodiversity and environmental change to understand the future of infection and disease in animals. As the 2022 Wardle recipient, we recognize the significant contributions that Dr. King's research has made to the fields of Parasitology, Ecoimmunology and Disease Ecology in Canada and across the globe.

**Thursday / jeudi**  
**14:00- 15:30**  
**Contributed Sessions / Sessions Contribuées**

**Thursday / jeudi**  
**15:30-16:30**

**Boutilier Lecture / Conférence Boutilier**  
**New Investigator Award**

Location: Arts 143

Chaired: Heather Jamniczky

**Dr. Ken M. Jeffries**

**Department of Biological Sciences  
University of Manitoba**

Ken Jeffries got his start in research at the University of Calgary where he studied the effects of pollution on a highly abundant minnow in rivers in Southern Alberta. During that time he developed an interest in using gene expression patterns to understand stress responses in wild fishes. After conducting his BSc Honours and MSc work at the University of Calgary, he moved to Vancouver for his PhD at the University of British Columbia where he used microarrays to study the effects of high water temperature on wild adult Pacific salmon. From there he moved to the University of California, Davis for his postdoctoral work to use transcriptomics approaches to study the effects of contaminants on fishes in Northern California. While there he was fortunate to receive a Delta Science Fellowship to use RNA-sequencing to study the effects of drought-related thermal stress in endangered fishes in the San Francisco Estuary. Ken joined the University of Manitoba as a faculty member in 2016 where he has studied the effects of thermal or contaminant stressors on ectotherms in a variety of systems. This includes thermal stress on salmonids, sea lamprey and lake sturgeon, lampricide exposure on sea lamprey and bluegill, and wastewater effluent on clams in the Arctic to name a few. A fun fact about Ken is that he has played hockey since he could walk, including at the Junior A level, and he thinks hockey players today are too soft. He also has a 110 pound male rottweiler named Rocky, that like Ken, is an oversized, hairball with a heart of gold.

**Friday, May 19<sup>th</sup>**

9:30-12:30	Tour: Wanuskewin Heritage park	Bus meets outside Place Riel
